Objective

I like to explore, build, and understand technology, but not code deeply. I prefer roles where I can use tools, think logically, and interact with technology, not get stuck in syntax. I understand coding and logic, but I prefer building real solutions with automation and process tools. I want to work in tech — just not behind a compiler every day.

Education

- Dr. Babasaheb Ambedkar Technological University** 2023 - 2027(Pursuing)
B.Tech Computer Science And Engineering
- Annasaheb Dange Public School, Ashta** 2021 - 2023
12th Pre University - HSC Board
- Vilasrao Shinde Secondary And Higher Secondary School Ashta** 2021
10th High School - SSC Board

Achievements & Awards

- Infosys Springboard Data Visualization Virtual Internship 6.0
- Internal Smart India Hackathon 2nd Prize Winner
- Next24tech Web Development Virtual Internship
- SmartBridge Google Cloud Gen AI Virtual Internship
- UI Path Automation Business Analyst Associates Virtual Internship Program
- Google Android Developer Virtual Internship Program,
- AWS Cloud Virtual Internship Program

Projects

- HotelRevAI**
HotelRevAI is a data-driven project developed as part of the Infosys Springboard Data Visualisation Internship 6.0. It focuses on analyzing hotel revenue performance using interactive dashboards and insights. It leverages data visualization tools to identify trends, monitor key metrics, and support better business decisions. Currently running locally.
