

ABHISHEK UGARE

☎ 8329485934 ✉ abhishekugare1289@gmail.com 📁 portfolio 🌐 LinkedIn 🐙 GitHub 📍 Ashta, Sangli, India

PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science Engineering student with strong interest in Data Analysis, Business Analysis, Artificial Intelligence, Machine Learning, Generative AI and agentic AI Technologies. Hands-on experience building web applications, automation workflows, dashboards, and database-driven systems. Familiar with Business Intelligence tool such as PowerBI, Machine Learning concepts, data preprocessing, and AI workflow automation tools such as n8n. Quick learner with strong analytical thinking, problem-solving abilities, and passion for building practical AI-driven solutions.

EDUCATIONS

- Ashokrao Mane Group Of Institutions** | Vathar tarf Wadgoan, Kolhapur, Maharashtra, India Aug 2023 - Jun 2027
Bachelor of Technology (B.Tech)
CGPA : 7.5
- **B.Tech in Computer Science & Engineering**
- Annasaheb Dange Public School, Ashta** | Ashta, Sangli, Maharashtra, India Aug 2021 - Apr 2023
Higher Secondary Education (HSC)
CGPA : 60%
- Vilasrao Shinde Secondary And Higher Secondary School, Ashta** | Ashta, Sangli, Maharashtra, India May 2021
Secondary School Education (SSC)
CGPA : 80%

PROJECTS

KAAYAA - AI & Agent Observability Project | 🐙 Github 🌐 Website 📄 Technical Blog

- Kaayaa is a modern observability dashboard built specifically for AI-powered applications.
 - Instead of only monitoring servers or APIs, It helps visualize the entire lifecycle of AI workflows.
 - The platform integrates with **OpenTelemetry** and **SigNoz** to provide end-to-end visibility across AI systems.
- Technologies / Tools Used : N8N, signoz, OpenTelemetry, Docker*

yaatra - Tour Itinerary Planner | 🐙 Github 🌐 Website

- **yaatra** is a travel management platform that simplifies the entire travel planning process.
 - Users can create trips by providing their destination, travel dates, budget, and preferences.
 - while an AI-powered agent generates personalized travel plans, including itineraries, estimated expenses and various things.
- Technologies / Tools Used : N8N, Supabase, React*

Web Traffic Analysis System | 🐙 Github

- A real-time analytics and traffic monitoring system designed to track, manage, and visualize website user activity through an interactive dashboard.
 - **Analytical Dashboard** is a full-stack web application developed to monitor website traffic and user interactions in real time.
 - The system provides live analytics, user activity tracking, and data visualization through a modern dashboard interface.
- Technologies / Tools Used : React, Typescript, Supabase*

HotelRevAI – Hotel Revenue Analytics Dashboard | 🐙 Github

- Developed an **analytics dashboard** to monitor **hotel revenue performance** and key business metrics.
 - Designed interactive visual reports to identify trends and support data-driven decision-making.
 - Applied data visualization techniques to highlight performance gaps and actionable insights.
- Technologies / Tools Used : Power BI, Data Visualization, Analytics*

MongoDB NLI – Natural Language Interface for Database | 🐙 Github 🌐 Website

- Built a **web application** that translates natural language inputs into MongoDB queries for simplified database management.
 - Designed workflow logic to automate database interactions and command generation.
 - Enhanced usability by streamlining query handling for non-technical users.
- Technologies / Tools Used : JavaScript, MongoDB, Node.js*

SKILLS

Languages :	English, Hindi, Marathi
Soft Skills :	Problem Solving, Tool Adaptability, Analytical Thinking, Leadership, Critical Thinking
Business & Analytical Skills :	Business Analysis, Process Understanding, Workflow & Logic Design, Data-Driven Decision Making
Tools & Platforms :	MongoDB, n8n Automation, Microsoft Excel, Power BI
Databases :	MongoDB, Supabase, MySQL

AWARDS & ACHIEVEMENTS

- Secured 2nd prize in the Internal Smart India Hackathon, demonstrating strong problem-solving and teamwork skills.
- Participated in the Agents Of SigNoz Hackathon 2026 by WeMakeDevs and sponsored by Signoz.
- Actively participated in virtual internship programs focused on automation, AI, and cloud technologies to enhance domain expertise on Eduskills

CERTIFICATIONS

Infosys Springboard - Data Visualization Virtual Internship 6.0
AWS - Cloud Virtual Internship
SmartBridge - Google Cloud Gen AI Virtual Internship
UiPath - Automation Business Analyst Associate Virtual Internship
Next24Tech - Web Development Virtual Internship
Google - Android Developer Virtual Internship
